

# I CAN DO ANYTHING CHARTER HIGH SCHOOL

Chairman of the Board  
Dr. John Barker

Principal Carol M. White, Ed.D.  
Vice Principal Tony Nitz

March 15, 2012

Dear ICDA Parents, Faculty and Staff,

As required by Federal and State guidelines, specifically 40 C.F.R, 763(g) (4), each public school is required to have their buildings inspected for hazardous materials. The Asbestos Hazard Emergency Response Act (AHERA) of 1986 states that the results of these inspections are shared with parents, teachers, and employee organizations affiliated with ICDA.

Please accept this notice as official confirmation that our facilities have been inspected and deemed free from any materials that could be regarded as hazardous to your students. The Asbestos Management Plan that was created and approved by Hazard Management Services documents that the school contains no known or assumed Asbestos-Containing Building Material (ACBM).

If you have further questions regarding this notice, please do not hesitate to call.

Sincerely,

Carol M. White, Ed. D.
